

ROCKRIDGE

DEVELOPMENT The community at the Rockridge BART Station has initiated an effort to beautify the portion of College Avenue located beneath the BART tracks and Highway 24. Community goals have been developed and specific projects are being defined. BART is assisting the community in project development and identifying grant opportunities for implementation.

ACCESS IMPROVEMENTS Since 2002, BART has partnered with City CarShare by providing parking spaces for a “pod” of 2 Car Share Vehicles in the BART parking lot. Ninety-one new bike racks are currently being installed.

This station is slated for new, ADA-compliant platform edge tiles in 2004.

REINVESTMENT This station had the station canopy re-roofed and had new, energy efficient lighting fixtures and lamps installed throughout the station parking lot in 2002. Those energy efficient lighting fixtures and lamps are scheduled for installation within the station itself in 2004. These projects are all part of ongoing station renovation program activities.
